Editorial:

The A.G.M was quite a surprise , there was double the members that turned up last year.

That shows that the club is still quite viable and that maybe some members really do want the club to survive.

We have a new committee and the Concours is already being planned as well as the Christmas get together.

For those who were at the A.G.M we now have a Secretary , Eileen Isaac put her hand up at the last committee meeting , and I'm sure that she will do an excellent job.

Nigel Newman in his P76 Leyland (No 76) at the Phillip Island Motor Racing Circuit last Sunday.

Round three of the Victorian Motor Racing Championships was held at the Phillip Island circuit over the long weekend.

With a perfect day on Saturday and a shocker on Sunday , drivers were faced with extreme racing conditions , which were dealt with in jovial manner that these guys race in .

One racer that was caught out in Sundays wet was P76 driver , Nigel Newman.

Returning after four and a half years from racing when his motor "blew up" at the Island , Nigel didn't have any wet weather tyres , so after his impressive finish in the club's car event on Saturday , he robbed his tow car's wheels to try to get some grip on his much improved Leyland.

It wasn't enough though , and after a good start , he slipped back to finish at the rear of the field.

It was great to see the big Leyland back , and we'll be watching to see how he's improved when they return later in the year for the Nationals.
